Scupper creates peaceful water feature for patients to view while it's raining.

A PARTNERS IN HEALTH PROJECT

PROFILE

CHRISTIAN UWINKINDI

“Being involved in the implementation of a project tested my skills beyond academic disciplines of civil engineering, and has increased my interest in architecture and its preventative role in healthcare .”

Christian joined MASS in April of 2012 to assist with the engineering design and supervision of construction of Butaro Doctors' Housing training under the site engineer. Christian continues to develop his skills through the design and construction of the Butaro Ambulatory Cancer Center.
